## Understanding Your Pool Service Contract

1. A pool protection plan is typically a multi-year parts and service contract.
2. It protects the homeowner against the cost of unexpected repairs or replacements associated with their new pool system and its equipment that malfunction due to normal wear and tear or under the manufacturer's warranty.
3. Covered items are outlined in the service agreement between the purchaser and the contracted and licensed installation company.
4. Coverage starts at the date designated at signing by the contractor upon completed installation and payment for services.
5. Pool protection plans do not cover general maintenance on pool systems. Failures as a result of lack of maintenance will not be covered under the policy.
6. Unlike many service contract programs, a new pool service contract does not require a deductible or trade call fee for services rendered.
7. The contract covers only those parts, systems and services specifically mentioned as covered.
